Summary

I help startups and enterprises scale through finance transformation, ERP modernization, and data-driven decision-making — with 25+ years across the USA, UK, Gulf, Singapore, and South Asia. As a CPA and SAP FICO S/4HANA certified consultant, I bring end-to-end expertise in: • SAP FICO / S/4HANA implementation & configuration • US GAAP (ASC 606), IFRS 15, cross-border tax & compliance • Fintech strategy, SaaS revenue recognition, AI-powered analytics • ERP transformation: SAP, Xero, QuickBooks • CFO-level reporting, consolidated financials, multi-entity structures • CRM, dashboards, Python & R for financial modeling I've secured a \$5M credit facility, recovered \$1.2M in margin through forensic audits, boosted cash flow by 22% across a \$15M portfolio, and cut audit cycles by 18 days. Currently: Finance Manager at MyAlice (Singapore-based AI SaaS). Open to: CFO · Finance Director · SAP FICO Consultant · Fintech Advisor roles — remote or hybrid. Let's connect if you need a finance leader who codes, builds dashboards, and delivers results.

Experience

Revora - formerly MyAlice
Finance Manager
January 2026 - Present (7 months)
Singapore

Achievements & Responsibilities

Enhanced customer satisfaction and revenue growth through data-driven financial strategies and automation.

Implemented US GAAP (ASC#606) and IFRS#15 for AI-based SaaS revenue recognition and compliance.

Led financial reporting, consolidation, and audit management for subsidiaries across .

Delivered accurate invoicing, tax compliance, and corporate reporting using SAP#FICO#S/4HANA, Xero, and QuickBooks.

Supported AI-driven financial analytics and ERP transformation, improving decision-making and operational efficiency.

Collaborated with sales and CRM teams to align finance workflows with customer success and growth objectives.

Achieved measurable revenue enhancement through process automation, cost optimization, and real-time reporting dashboards.

Automation , Stripe , Shopify , n8n , Python , A lot to achieve with coding , system architect.....

Enterprise Structure: This involves defining the company structure, including company codes, business areas, and functional areas.

General Ledger (GL) Accounting: This covers defining the chart of accounts, which is a structured list of all financial accounts used in the system. You'll also configure account groups, tolerance groups, and other settings related to general ledger management.

Company Settings: This includes defining fiscal year variants, posting period variants, and other company-specific configurations.

Tax Codes: Setting up tax codes to handle different tax scenarios for sales, purchases, and other transactions.

Automatic Posting: Defining rules to automatically assign accounts for various transactions.

Asset Management: Configuring settings for asset depreciation, including depreciation areas, methods, and key calculations.

IGC Construction LLC , UAE

Financial Analyst

January 2016 - December 2017 (2 years)

United Arab Emirates

Core Responsibilities

Project Treasury:

Structure bank guarantees, performance bonds, and letters of credit for EPC bids. Capital Optimization: Build rolling liquidity models balancing cash with construction cycles and subcontractor milestones. Risk Controls:

Enforce internal controls

(ICS) to prevent margin fade and audit change orders. Business Planning: Model P&L, Balance Sheets, and cash flows accounting for retention and mobilization. Commercial Strategy: Advise executive leadership on material hedging, inflation escalation, and contract risks. Performance Metrics: Design KPI dashboards linking field execution data with financial frameworks like EVM. Achievements Liquidity: Boosted cash flow by 22% across a \$150M portfolio via IFRS 15/ASC 606 under-billing controls. Capital: Secured a \$45M Tier-1 credit/bonding facility, lowering financing costs by 85 basis points. Margin: Recovered \$3.2M in leaked margin through forensic audits of subcontractor change orders. Forecasting: Upgraded joint-venture modeling to improve long-term cash projection accuracy by 35%. Audit: Cut external audit cycle times by 18 days by streamlining subcontractor payment controls.
